

EVITP Policy August 2022

1. Certification is available for Journeyman Wiremen only. Apprentices may complete the training, but certification will not be granted until they change status to Journeyman Wireman. All inside apprentices will complete EVITP training in the fifth year.
2. The cost for the course and certification exam is **\$82.00**.
3. The ETI will register Journeyman Wiremen in the Protech Skills Institute program upon receipt of payment through our online bookstore hosted on eti-indy.org.
4. The course is 100% online and can be completed anytime via an internet connection. There is no textbook, all materials are available online.
5. Course materials are accessible at <https://lms.protechskillsinstitute.org/>
6. Once a member has completed all seven lessons of the online training module with a passing score, they must generate a course completion document.
7. The member will then forward this document to Paul Meyers (pmeyers@eti-indy.org) for verification.
8. The ETI will schedule a time for the participant to take the two-hour certification exam in person using our computer lab.
9. If the member receives a passing score on the certification exam within 180 days of their initial payment for the course, the ETI will issue an **\$82.00 refund**.
